PUBLIC LIBRARY OF KENTUCKY

DEATH OF GOV. BRAMLETTE. ACTION OF THE SENATE. A RECESSION APPOINTED. POSTPONEMENT. DRAWING. CHAIRMAN ADVISES.

At a meeting of the Trustees of the Library of Kentucky, Jan. 10, 1875, it was voted that C. M. Briggs, Esq., who was elected Hon. Thos. E. Bramlette was the member of the Senate already

in aid of the Public Library of Kentu-
cky and he hereby authorizes to take the
sum of \$1000.00 out of the Public Library
Fund for the purpose of the affairs of the Fifth
Kentucky Concert, and that the Drawings
announced for February 27th, 1876, be
drawn locally on the 27th of that day,
and no further postponement or delay of
account whatever.

R. T. BURRETT, I.
JOHN S. CAIN, Sec'y.

Hereafter, all communications relating
to the Fifth Concert should be addressed to the
signed, and I pledge myself that the Tr.
shall come off February 27th or that every
paid for it will be returned.

W. M. BRIGGS, Agent and Manager

Items of Interest.

No fewer than six embryo ship canal projects are before the U. S. Congress.

The ice in the Hudson River, between Troy and Albany, is thicker than it has been for fifteen years.

Eureka, Nevada, has shipped 16,500 o

Telegraphy is becoming marvellously perfected. Recently 3,020 words were sent over a single wire in ninety minutes.

One of the chief exports of Egypt is cotton seed; the amount sent out of the country, mainly to England, having risen from 1,000 cwt. in 1860 to 3,490,080 in 1873.

The combined exports of merchandise

and produce from San Francisco by water and treasure through regular mercantile channels for the past year amounted \$67,612,200, an increase of nine million over 1873.

A heavy squadron of fiery steeds. The total number of locomotive steam engines in the world is 45,667, of which 14,223, nearly one-third, are in the United States.

The cattle king of Texas is now said to be Mr. Samuel W. Allen. He has a ranch

The managers of the Lake Shore Railway have issued an order declaring that in the future the company will not retain in the

"The cup which cheers but not inebriates." There are stored in New York and other seaports 75,000,000 pounds of wheat with 10,000,000 in addition to arrive within a few weeks, or nearly three years' supply for the entire country.

The moon shines and is visible to us

consequence of the light of the sun and the cause of the moon reflecting this light. There being a sphere, it follows that the moon must at all times be illuminated by the sun. When the illuminated portion of the moon is turned directly towards earth the moon is of course full; when this is the case the moon and the sun are seen from the earth at 180° apart.

menitions having been at St. Nicholas, Lorraine, a single plank of the wood of walnut 25 feet wide, upon which the Emperor Frederick III. had given a sumptuous banquet. In the Baidar Valley, near Balaclava, in the Crimea, stands a walnut tree at least 1,000 years old. It yields annually from 80,000 to 100,000 nuts, which belongs to five Tartar families, who share its produce equally.

heavens, exactly coincident with his horizon. To an observer in 45 deg. north latitude the equinoctial would appear as an arch in the heavens, 45 deg. above his horizon directly south, and coincident with his horizon at the east and west points. To an observer at the equator the equinoctial would appear a straight line, cutting the east and west points of the horizon and passing through the zenith.

German manufacturers are purchasing fish-bones gathered along the Norwegian shores which result from the extensive herring curing stations there located. These bones make a fine fertilizer, and, when pulverized by suitable machinery at the points of collection, are readily transported. The *Atlantic Journal* suggests the more extended utilization of the bones from the establishments at Newfoundland, and estimates the products from American fisheries at two

A curious phenomenon frequently met with in the Indian Ocean, the real cause of which has not been ascertained, is the existence off Malabar, and in certain spots along the Coromandel coast, of vast mud banks, and of tracts of mud suspended in the sea, wherein many kinds of fish find abundance of food, immunity from all disturbance in the surrounding elements, and a place in which to breed. The existence of these mud banks is due to the existence of these large rivers.

Many experiments have been tried in France to test the effects of cold on railway axles. Many engineers suppose that accidents to wheels do not result from a diminution of tenacity of the metal, but

merely from its losing all its elasticity owing to the frost hardening the surface of the earth. A fact which can be adduced as a strong argument in favor of that theory was observed by the inhabitants of Montmartre during the last period of frost. The passing of the trains which run frequently through the Faigolles tunnel at a distance of half a mile was heard then day and night, which is never the case in ordinary circumstances. As soon as the frost in the trains ceased to

The thill set in the train coasted to a stop, the earth having resumed its former elasticity, the sounds were dissipated as before. It has been observed by French railway engineers that thows are apt to lead to the breaking of axles and chains. The elasticity being only partially recovered, many shocks affect the trains when running at a fast rate, and are apt to lead to catastrophes.

aggravated by the extremely cold weather which freezes up what little water there is many farmers being obliged to melt snow water their cattle. Pipes and reservoirs are frozen everywhere, and the Nashua manufactories run but three hours a day, fearing that the ice in their canals will crush down and freeze to the bottom ; and in many other sections they have stopped altogether.

In Barcelona is an artist, Zuloaga, who is also an engraver.

namo, who takes a steel plate, and with gold and silver, and with his hammer works out a box such as those of the Cinque Cento period, now so much sought after. Alfonso XII., it is stated, has ordered of this artist a *mirtoir de table*, decorated with the arms of Spain and of England, which His Majesty means to present to the mess at the Woolwich Artillery School, as a souvenir of his sojourn with his late comrades.

Daily Intelligence.

TUESDAY, FEBRUARY 9, 1875.

Town and Vicinity.

LATE.—The western mail was over three hours late today. The intense cold responsible for the delays which have taken place within the last few days.

WEST.—To-morrow, which will be Ash Wednesday, commences the solemn season of Lent. Services will be held in St. Thomas and St. Paul's as already announced during Lent, and in the other churches as usual.

GRAND TRUNK.—Owing to the strike on the Grand Trunk, freight moves forward slowly, and there have been some slight detentions of freight, but business is being carried on more actively than might have been anticipated under the circumstances.

SENATORIAL.—We are informed that Mr. Dunlop, who has been one night recently by two men who attempted to rob him, in a dangerous condition, and his recovery is extremely doubtful. We trust, however, that he may yet recover, and be able to identify his assailants.

DEATH OF A FIGHTER.—James Clapp, Esq., father of Robert Clapp, Esq., Liberal-Conservative candidate at the recent election in Prince Edward, died at Charlottetown, on Wednesday last. Mr. Clapp settled in Prince Edward in 1810, and was highly respected by all classes for his uprightness and charitable disposition.

A DEPUTATION.—The Town Council, at its meeting last night, appointed a deputation to proceed to Ottawa and endeavor to obtain a grant from the Dominion Government for the dredging of our harbor. The claims of Belleville in this direction are strong, and we trust that the deputation will succeed in their object, in which they will no doubt be supported by the Members in the Senate and in the Commons for this County.

NEW ESTABLISHMENT.—It will be noticed that Mr. Spangenberg has opened a new jewelry establishment in the street formerly occupied by Mr. Rosenberg. Mr. Spangenberg, who has been a resident of Nanaimo, where he carried on business for several years, comes here well recommended by the press of that town. We wish him success in this new venture, and commend his establishment to the equanimity of our readers.

BITTERLY COLD.—The Council Chamber last night was so cold as to be exceedingly uncomfortable to members and the reporters, who found it difficult to write down a report of the proceedings, reminding them forcibly of the frozen hall at Upper bridge, where there was so much to complain of in this respect. Either the furnaces are insufficient to heat the building, or the care-taker does not turn on the heat soon enough. Whatever the cause of so much cold, the matter should be remedied in future.

THE WEATHER.—The "bell snap" continues with little abatement in severity. Last night the ordinary thermometer denoted 23° below zero, and the wind being high, the cold was felt all the more. It was not any other night ever previously experienced here. At 1 o'clock today, despite the unrelenting influence of the sun upon the thermometer, the thermometer marked 4° below zero. The long continued and extreme cold has had the effect of almost stopping travel, and completely paralyzes business. So severe a "snap" has not been experienced here for many years.

FIRE BRIGADE.—Our Fire Brigade, which has been in an incomplete state for some time, was held in a meeting last night, at the request of an Assistant Engineer since the death of the late Donald Bain, has once more been completely organized. The Town Council, at its meeting last night, appointed James Quinn, James McKinnon, First and Second Assistant Engineers respectively. Both appointees are well qualified to discharge the duties of the office which they have been chosen to fill, and to which it may be safely said, no salary attaches. We trust that the Brigade will, in spite of rumors and talk to the contrary, continue to act harmoniously, as the organization is now second to none in Ontario.

News Condensed.

—The Ontario new year festivities began on Feb. 6.

—There are 12,000 periodicals taken at the British Museum.

—It is proposed to increase the salary of the Premier to \$12,000.

—Messrs. Casey and Laframboise are the Grit watchmen.

—It is said that Mr. Cartwright will make his budget speech on the 15th inst.

—Thermometer at Ottawa on the morning of the 8th inst., at 27° below zero.

—The mills on the canal at Montreal have stopped work for want of water.

—M. Gardner, tax collector at Petrolia, was robbed of \$500 on the 6th inst.

—The Toronto, Grey and Beise Railway has been blocked with snow for a week past.

—732 persons have been furnished relief from the Soup Kitchens within the past few days.

A Benefit for the Poor.

But few persons are aware of the amount of suffering and sickness among the poor this season, owing to the continued inclemency of the weather. The Corporation, through the Police and Sanitary Committees does a great deal to relieve the destitute: the St. George's and other National Societies do much also in the same direction, whilst private charity lends a powerful helping hand to the needy; yet in spite of all this, much suffering is occasioned by the poorer classes. Some of our citizens have lately had their attention called to the matter, and they, knowing the charitable disposition of the Principal of the Institution for the Deaf and Dumb, and the ready willingness of his assistants to aid the cause of charity, addressed Dr. Palmer, asking that a performance of one of the popular pantomimes performed by the "company" of the institution be given in a public hall, proceeds to be applied for the benefit of the poor. The answer was what might have been expected a cordial affirmative.

The correspondence, to which we give place with pleasure, is as follows:

To the Principal of the Institution for the Deaf and Dumb, Belleville.

We, the undersigned, knowing your sympathy for the poor, and your kind consideration of the welfare of the poor, and the distress prevailing, request you to contribute to the relief of the poor by a performance of one of the popular pantomimes performed by the "company" of the institution be given in a public hall, proceeds to be applied for the benefit of the poor. The answer was what might have been expected a cordial affirmative.

MORNING DESPATCHES.

EUROPEAN.

AN AUSTRIAN ARCH DUKE ARRESTED.

VIENNA, Feb. 9.—Arch Duke Johann Salvator, an officer of the Austrian army, who was arrested last night, because, in a pamphlet on military organization, he violently attacked Germany, and declared that war between Austria and Germany is impending.

AMERICAN.

EARTHQUAKE AT SAN FRANCISCO.

Scene in the North Carolina Legislature.

RECAPITULATION OF REPUBLICANS.

THE LOUISIANA AFFAIR.

Compromise not yet Effected.

A FIREMAN'S FIRE.

CHILD FATALY BURNED.

DARING ROBBERY IN NEW YORK.

SOUTHERN TROUBLES.

Proposed Congressional Action.

SAN FRANCISCO, Feb. 9.—Several earthquakes were felt here on Sunday, causing some alarm, especially among the congregations in the churches. No damage is reported.

RALPH, N. H., Feb. 9.—The House of Representatives on Monday evening, Feb. 9, passed a resolution, relating to the re-organization of two leading members of the Republican party on the floor, in consequence of the passage of the Civil Rights Bill by the National House of Representatives.

NEW ORLEANS, 12:30 a. m., Feb. 9.—No reports were admitted to the Conservative cause, but it is said they received tonight a proposition for compromise, signed by forty-two members of the House of Representatives, all of whom returned by the "Riot." It is understood that the Republicans will not submit to anything that will diminish the present composition of their House.

LIVERPOOL, 4.—The Committee appointed to draft a new plan of compromise reported a resolution in favor of settlement, acquiescing in not recognizing the Kellogg Government. No vote was taken, consideration of the resolution being deferred until to-morrow.

NEW YORK, Feb. 9.—Last evening three men entered the Parkview's shop of A. Nissey, Atlantic Avenue, Brooklyn, under pretence of doing business, knifed down and gagged the proprietor, took from his pockets \$200, and robbed his safe of jewellery valued at \$7,000.

A fire broke out in fire engine house No. 5, at Hunter's Point, which destroyed that building, a school house and three neighboring houses. Loss, \$45,000. Three officers were seriously burned while rescuing children from the flames. One child was killed, it is supposed fatally. The fire is supposed to be incendiary, and to have arisen from rivalry between the members of "The Company No. 5," and another.

WASHINGTON, Feb. 9.—The Committee appointed by the Republican Civil Caucus to consider the Reconstruction Act, the main features of which were printed last night, a section is added making it unlawful for any of the reconstructed States to impose other qualifications for voters than those existing at the time such States were re-admitted under the Reconstruction Act. The purpose of this section is to prevent any of those States from imposing an excessive poll tax, thereby practically excluding negroes from participating in the election. Except the last section, which authorizes the President to suspend the rights of habeas corpus in certain cases, the Bill is devoted to maintaining freedom and guarding the purity of the elections.

CHICAGO, Feb. 9.—Receipts of hogs, 75,542; shipments, 3,222.

NEW YORK STOCK MARKET.

NEW YORK, Feb. 9. Gold 114 1/2.

NEW YORK PRODUCE MARKET.

NEW YORK, Feb. 9. Cotton dull at 1 1/2 for Middling Uplands.

Flour dull, prices without decided change; receipts 8,000 bbls; bids 3,000 bbls; quotations unchanged.

Wheat quiet and steady. Receipts 14,000 bush; sales 25,000 bush at 81 1/2 @ 81 3/4; No. 2 Red 81 1/2 @ 81 3/4; No. 3 Red 81 1/2 @ 81 3/4; No. 4 Red 81 1/2 @ 81 3/4; No. 5 Red 81 1/2 @ 81 3/4; No. 6 Red 81 1/2 @ 81 3/4; No. 7 Red 81 1/2 @ 81 3/4; very high, many elections were "up on this very cry." West Toronto was a notable case. Here, as shown in court the election trial, a man had been required to incite the passions of the "rough" body in the division in favor of Mitchell, who subsequently showed his gratitude for Orange support by voting against the Incorporation Bills. This was all well in Ontario, but in Quebec differ-

[illegible]

to be present on Flaxmill on Saturday, and a number of cases of this air-borne disease.

DR. W. FRANKLIN.—Mr. G. D. Dickson writes that he has examined the material.

Our Vermont newspaper thus describes the disease in North Foyxley, which has lately attracted public attention: "The complaint is on the north side of Mount Mansfield, with alope being perhaps three hundred and its mouth alone half that distance. It is in a line of detached rocks, with crevices and overgrown with moss. These crevices are very deep. One of them, we judge, will, in a mostly covered place, be a growth of trees, bushes and ferns. Some places are not so covered, and may say the crevices not completely filled by the cryptogm not so covered."

The air in the crevices or caves is said to be very cold, and is considered in relation to the outside atmosphere. When it is cold, it comes out of the crevices, and is in contact, the moisture with which it is saturated, and is continued in vapour, and that is the cause of the disease. It is said to be within the cave or crevice is 40 degrees above zero.

WEDNESDAY, FEBRUARY 10, 1875.

Town and Vicinity.

LIVE. The Western mill was a two and a half late today.

CHURCH SERVICES.—The usual Lenten services were held in the churches today, the attendance being considerable.

MUSICAL MEETING.—The Missionary Meeting will be held in the West Belleville Methodist Church this evening.

PERSONAL.—Hon. B. Flint and Senator Rogers, the latter of whom happened to be in town, left for Ottawa today.

I. O. O. F.—John Gibson, Esq., of Stratford, Grand Chief Patriarch of Ontario, is in town today, on an official visit to Quebec.

QUINCEY.—Prof. Eng. P. O. Quincey, of Montreal, and his wife, arrived in town today. His car will be found in our advertising column.

CRUELTY.—The Belleville Curling Club suffered defeat at the hands of the Port Hope Club in that town yesterday, the match being the second half of the season for the Royal Canadian Medal.

NEW MUSIC.—Messrs. Koller & Lazier have sent us "Rockaby," a new song, the latest published by the Messrs. Nordheim. Poetry by Mrs. H. A. Wilkins; music by J. Fossier.

AGRICULTURE.—The farmers are progressing with their work very rapidly, and there now seems no doubt that the rolls will be completed in due season, although the labor is very heavy.

FEW MARKS.—The local fair market is steady, with a fair amount of business doing. No change is expected to take place until after the March sales, which will take place early next month.

THE MARKET.—Trade was rather more lively on the market, although far from having resumed its normal condition. A few loads of grain were eagerly bought up at the prices quoted in our market report.

MODERATE.—The weather at length began to moderate, today's temperature being considerably milder than that of the three days preceding. It is quite cold enough yet, however, for pleasant winter weather.

DEUL.—Business continues extremely dull in town, but with the constant improvement of the roads which is now going on, an early and favorable change is anticipated. No great improvement is expected, however, until the opening of the Spring trade.

CONCERT.—Miss. Carro Saint, the greatest lady pianist, will give her farewell concert in Belleville on Tuesday, the 10th instant, in Graham's Metropolitan Hall. The sale of tickets for reserved seats will commence on Friday morning at 10 o'clock at Koller & Lazier's music store.

ANNUAL MEETING.—The annual meeting of the Hastings Mutual Fire Insurance Company will be held in the office of the Company on the 20th inst., at 1 o'clock p.m. We understand that the annual report will show a satisfactory year's business. Losses have been heavy, but the increase in receipts will more than compensate for them.

CHARITABLE ENTERTAINMENT.—Our advertising columns contain particulars of the entertainment to be given in the Metropolitan Hall on Friday evening, for the benefit of the poor. In addition to the officers and members of the Institution for the Deaf and Dumb, the Amateur Club of vocalists have volunteered their services, and a varied and interesting programme has been arranged. We trust to see a full house, as the cause is one which must commend itself to the people of the town.

MORE HEAVY WEATHER.—The attention of the Chairman of the Market Committee is directed to the necessity of procuring additional heating apparatus for use in the Council Chamber during the present season, as such extremely cold weather as has prevailed of late. The temperature of the room last night, although the fire was kept very hot, was below freezing point, and consequently was below freezing point, and consequently was below freezing point. The matter should be attended to at once.

THE PUBLIC LIBRARY'S LAST DRAWING.—In response to letters and inquiries, we beg to inform that the drawing of the Public Library of Kentucky will take place on February 27th under the presidency of a committee of the Board of Trustees. The drawing will take place at noon, and will be held in the presence of the public. The drawing will be held in the presence of the public. The drawing will be held in the presence of the public.

Special Telegrams.

FROM OTTAWA.

The Amnesty Question.

PROBABLE ACTION OF THE PARTIES.

Ontario Gets Preparing to Shirk the Vote.

THE PACIFIC RAILWAY.

APPOINTMENT.

ASH WEDNESDAY.

RAILROAD BLOCKED UP.

OTAWA, Feb. 10.

It is likely that the Conservative Party

from Ottawa will not move any amendment

to the resolutions proposed by Mr. Macken-

zie on the amnesty, but that they will

have a straight vote on or after

Mr. Ryan, however, the new member

for Marquette, will move that the amnesty

be granted to all persons save the

authors of the Scott, McLean, and

Johnson, the leaders of the French Bibles

Programme, will move, on the other

hand, that the amnesty be complete.

The French Rouges or Liberals are reported

to be satisfied with the Government

proposal, but several of the Ontario Re-

formers feel a difficulty as to the case. The

debate is looked forward to with great in-

terest. Several members are expected to

shirk the vote.

There is a rumor that the Government

intend to push on the Pacific Railroad in

the direction of Bow Inlet as soon as pos-

sible. They are bound, as soon as the

surveys in British Columbia are completed,

to spend at least two millions of dollars a

year on the road in the Province, and to

complete the Line from Lake Superior to

Esquimaux by 1880.

Mr. E. P. Russell of Montreal is appointed

Secretary to the American Centennial Ex-

position Commission.

Rocky being Ash Wednesday is a statu-

tory holiday, and therefore they have

partially suspended business. Several

stores are closed and services have been

held in the Roman Catholic and English

Churches.

The weather has somewhat moderated.

The railroad is, however, partially block-

ed up, and the mails are late.

MORNING DESPATCHES.

AMERICAN.

Strikes in Massachusetts.

Trouble Amongst the Weavers.

FIRE IN THE NEW YORK BLIND

ANNUAL.

A Father Shot by his Son.

FALL RIVER, Mass., Feb. 9.—The mer-

chandise mill continued to run today, but

it is not yet clear whether the strike will

be continued. The presence of the State

police here has created considerable feeling

among the mill hands, and the opinion is that

the former have been called upon for the sake

of preventing their cause. There was no

difficulty to-night in preserving order, and

the help was allowed to leave the mill without

any attempt to molest them. It is pretty

generally understood now that if the help

would return they would get back full 25

per cent in the course of a week or two.

There was a strike at the Elmer Mill to-day

the same reason that the weavers struck

at Elmer's Mill yesterday, namely the posting

up of an order of 25 cents, on condition that

the operatives of three mills now on the strike

would return to work. A deputation of five

weavers, men and female, waited upon the

Treasurer this afternoon, and they have

decided to resume

END, FOR A DESCRIPTIVE PAMPHLET, ADDRESS
YOUNG, BILLS & CO.,
110, 112, Ontario.

this is not a very ~~valuable~~ ^{valuable} advertisement of the year, and
either.

He was pleased with his law
just necessity

indubitably that they did not. Instead of coming boldly forth in the light of day, as innocent men, or even pardoned

Prof. Bell, of Belleville, delivered the opening address on "Canada in the dairy, and in the market." Afterwards several interesting questions were discussed.

The French Government will be represented by Dr. Janson, most probably at Hue, and it is expected that Professor Young may represent the United States at some station on the eclipse track.

Tickets can be obtained at the Book Store
and at the Music Store of Messrs. Kollmer &
Lazier, or of Members of the Committee.
February 10th, 1876. d3t

R. NEWBERRY,
O. M. C.
Belleville, 4th February, 1875. 225-6t

MUSICIANS, Music teachers and School Teachers wishing to buy either Organ or Pianos, will find it to their advantage to call on W. H. Van Tassel, next Post Office Belleville.

British Trade Returns for 1874.

The recent publication of the Board of Trade returns furnish us with interesting information in relation to the foreign trade of Great Britain in the past year. The total value of the imports and exports in the year was \$507,871,841 (exclusive of foreign goods exported), being a decline of about 17 1/2 millions on the previous year, and about 23 millions on 1873, which was an average made with 1871, the increase in 1874.

The export of coal for the past year was nearly one million tons in excess of that of the previous year, at an estimated loss of \$1,000,000. The value of the exports was half a million sterling less. This was caused by the steady contraction of prices, which has been a marked feature of 1874, and which extends to nearly all articles, more especially iron, cotton yarn, piece goods, and refined sugar.

The collapse of the pig iron trade of America, and the general demand for railroad material, concurrent on the part of 1874, had its effect on the exports of Great Britain in the shape of a decline of \$1,000,000. The value of the exports of this class of goods, as we find that the deficiency in quantity shipped to the States as compared with 1873, exceeds the total deficiency in the exports for the year.

Taking all the year, we find that the aggregate of raw materials are in excess of 1873, a standing first with an increased import of 25 per cent, while the delivered value is 75 per cent less. The imports from the United States were larger, with one exception, than for any year since 1860, and the balance of trade in favor of the country, showing a great increase in the value of the exports, and a decline in the value of the imports.

There has been a general increase in the exports of cotton piece goods, a great part of which went to China and East India, and a decline in the exports of woolen goods. The falling off in the East exports has been chiefly owing to the depressed state of trade for the last few months of the year, the opening months showing a declining trade.

The imports of the year which had up to the month of November, exhibited an increase, owing to the decrease in December, about 4 per cent. Below 1873, but 4 per cent more than in 1872. The importation in value in the month of December, amounted to \$4,000,000, or 15 per cent less.

The total amount imported by the Customs in 1874 was \$19,501,452, a decline of \$1,419,745, as compared with 1873, of course due to the abolition of the import duties, which has absorbed more than this amount, thereby leaving a sum of about \$150,000 as gain to the Customs. This, of itself, speaks well for the prosperity of the country, and takes in conjunction with the lower prices current for many of the necessities of life, as food, clothing, &c., goes far to prove that the nation as large has during the year benefited to a greater extent, perhaps, than in any previous one.

Farm and Poultry.

CARE OF HORSES.—Horse-breeding is a subject which of late occupies considerable attention in France; but best horses are rapidly bought up, by foreigners, which compels us to pay more attention to the care of horses, so that we may secure proper progeny. The horse, "the most noble conquest of man," according to Buffon, suffers, as a rule in this country, from the absence of intelligent care. The horse's eye is said to make the horse thrive, but unless he is seconded by a groom, his eye, however bright, will be deceived. He is not every man who can make a good groom, however well disposed and industrious he may be. The horse is an animal of great sensibility, and in addition an affection for France. The latter is the weak point of the French stallion.

To groom a horse well, and keep the stable warm, are the two most essential; there is further demanded an attention to the animal's state of health, nothing when the horse is in the stable, but as soon as he is out, he should be exercised. But as soon as he is out, he should be exercised. But as soon as he is out, he should be exercised.

Carrots cut and mixed with the ration of oats morning and evening are refreshing, but to feed horses with carrots is a large mistake. Carrots have been found in France to affect the kidneys and enfeeble the animal. Horses employed for speed require their hay cut in small portions at a time; this prevents a great drinking and distention of the stomach. Not a few practical men trace asthma and wheezing to this cause. In the matter of drinking, well water is most proper for horses, and they should be prevented from drinking when they are hot. Horses with a tendency to gorge themselves with water should be kept in a stable, and their water should be withheld.

The booring on the stable horse much to do with condition of health. Asphalt paving is the favorite pavement for stables here, which costs two and one-half francs the square yard. Twenty-two horses, belonging to an artillery regiment, have been poisoned by eating old manure hay. Three of them died, and on dissection, the latest ones displayed grave anatomical lesions. These have had received specific drugs, douches, and purgatives, adding a little ether and opium in the beverages, to calm the colic. Such poisoning is not at all rare among dismounted soldiers, and is not only by manure hay, but also from castor oil, in a similar state.

THE FARMER AND THE FLOCK.—The "Paris Herald" relates that little "daisy" An old gentleman living near here was called upon a short time since by a clock maker, who examined his old French clock and pronounced it out of order. The old gentleman said he was good enough for a clock maker, but he was not so good for a clock maker. He was not so good for a clock maker, but he was not so good for a clock maker.

LIFE RISKS

Daily Intelligencer.

WEDNESDAY, FEBRUARY 17, 1876.

Town and Vicinity.

LAKE.—The Eastern mail was two hours late this morning, the track being still heavy.

MASSAGE.—The regular meeting of the M. Lodge A. F. and A. M. will be held in the Masonic Hall this evening at 7:30.

LICKENS.—Carters and livery stable keepers are reminded that their claims must be paid on or before the 1st of March.

DAVEY PROCK.—We have been informed that Mr. James Chisholm, son of Sidney, got his hands frozen so badly some days ago, that amputation will be necessary.

THE MARKET.—Everything was scarce on the market to-day, except wool and hay, of the latter of which articles there was sufficient to meet the demand.

LICKENS.—A large number of applications for licenses has been received. The Council will probably take action on a By-law respecting the same at its next meeting.

SPECIAL MEETING.—Sergeant Precupsky No. 133, Royal Black Knights of Ireland, will hold a special meeting in the Orange Hall at 7:30 this evening.

WESTERN MAIL.—The western mail was between three and four hours late. It is understood that the detention was caused by a freight train running off the track near Whitty.

ANNIVERSARY.—The Workmen's Temperance Association of Belleville will celebrate their sixteenth anniversary by musical and literary entertainment in the Metropolitan Hall on Tuesday evening next, the 23rd inst.

ON TIME.—The Ontario Government have forwarded the blank licenses for taverns, shops, &c., at an unusually early date, they having been received in morning. Last year the Government were not so prompt.

PROPOSED CURE FACTORY.—It is proposed to establish a cheese factory at Bridgewater, and a meeting to consider the propriety of forming a company is to be held at that village on Thursday, the 25th inst., at 2 o'clock, p. m.

REMOVING.—The Belleville branch of the Royal Canadian Bank will remove to the new premises specially fitted up for its reception in Granville Block, corner of Front and Campbell streets.

ENLARGED.—The Picton Times comes to us this week enlarged by the addition of four columns, which constitutes it a 32 column sheet. Mr. Atkin, the present proprietor, conducts his paper with a good deal of energy, and has much improved it of late.

THE DENOY ASSAULT.—Sergeant Snider yesterday afternoon arrested two young men named Green, whom he suspects of having been the parties who lately assaulted and attempted to rob Mr. Dennoy. The victim of the assault is still very low, from the effects of the terrible beating which he received.

A BIG BLOW.—Another gale, and more snow and drifting to-day. Farmers and business men are beginning to wonder whether this continuation of the elements will cease before Spring, as the roads are extremely drifted, and farmers and country dealers are unable to reach town, and trade languishes on all hands.

SPRING ARRIVES.—The Spring Assizes for the County of Hastings will not commence until Wednesday, April 21st, an unusually late date. Mr. Justice Patterson will preside. The criminal calendar is one of the heaviest ever disposed of in this County, and the probability is that the civil docket will contain a large number of cases.

DANGEROUS.—The danger of "coasting" on hand sleds has been frequently shown by the reports of fatal accidents recorded in our telegraphic despatches. These examples have no terror for the youth of Belleville, who continue to practically monopolize many of the sidewalks, regardless of the rights of pedestrians and of the danger to themselves.

MADAME SAURET'S CONCERT.—The farewell concert given by Madame Sauret in the Metropolitan Hall was, if not so liberally patronized as it undoubtedly should have been, at all events a great artistic success. From the first note which she uttered on the magnificent instrument which Messrs. Kollmer & Lazier provided for her manipulation, to the last, unwearying strain, and manifestations of pleasure, raptures by applause, and in some instances warm tears, were given at the conclusion of each item set down on the programme. It is unnecessary to enter into any detailed criticism of Madame Sauret's merits as a pianist. Sufficient to say that they had not been overrated, and that she is one of the most talented artists in that line who have ever visited Belleville. Her singing of "Home, Sweet Home," received merited encore. The lady, though not professionally a vocalist, possesses a mezzo soprano of considerable sweetness and power, and did not disappoint her auditors in this respect. Mr. Whisk accompanied with very good taste. It was a flattering tribute to Madame Sauret's rare artistic powers to be so unreservedly, except by an accompanist, to her song, to retain throughout the whole programme the delighted attention of a good deal of audience in a cold hall, into which a good deal of smoke had penetrated from some quarter. We trust to see and hear her again under more favorable circumstances.

MORNING DESPATCHES.

AMERICAN.

THE WEAVERS' STRIKE.

DESPERATE SITUATION OF THE FISH LIME FLEET

Efforts for Relief of the Fishermen.

SETTLEMENT WITH CREDITORS

BANK FAILURE IN ST. LOUIS.

Clowes & Co.'s Failure.

THE RAILROAD WAR.

PAID RIVER, Mass., Feb. 17.—The announcement made at the mass meeting last Saturday night, that three other mills must strike unless 27 1/2 per cent. be conceded this week, has been carried into effect so far as to give their 27 1/2 per cent. notice. At the Merchant Mill, 22 looms are running—34 of 28 over yesterday. About five hundred looms have stopped in Dorchester Mill No. 1, the agent refusing to allow these operatives who left the mill on Monday, on account of the employment of striking weavers to return, although they applied for admission.

At the other North-West mills, the letter in the situation of the fishing fleet of Provincetown. The ice in some places is 11 feet thick, caused by different layers overlapping each other. Against this solid pier of ice the cutter can make no impression, and the vessels will be obliged to wait the first easterly wind, which will break up the ice.

Capt. Smith, an old experienced shipmaster, who has arrived from Provincetown, states that there is no suffering among the fishermen for want of food, as communication with the land over the ice is easily made. Some 50 men belonging to the fleet walked ashore, and had arrived in this city. They left a sufficient number behind to take care of the property, and they are perfectly safe on board. Occasional vessels have chartered a steam tug with a supply of provisions to leave Boston tonight for Cape Cod, carrying a number of sleds to be used in transporting the same to the fishermen.

Weather very cold at the Cape.

The creditors of the dry goods house of Heath, Anderson & Co. have agreed upon a settlement upon the basis of seventy-five cents on the dollar.

ST. LOUIS, Feb. 17. Investigation into the affairs of the People's Savings Institution, shows gross mismanagement on the part of the Directors and President, as well as assets by the cheating Cashier. Western Bank over deposits \$730,000; assets not yet determined. Fidelity & Co., of New York, were debtors to the bank of \$400,000 at the time of the failure, and have since secured a portion of it to bank.

NEW YORK, Feb. 17.—The creditors of H. C. Lewis & Co., have elected J. Nelson Tappan, the present City Chamberlain, Trustee, and the following committee of creditors: C. H. Simpson, of the Continental Bank; Allen Moore, of Syracuse, and W. F. Drake, of Drake Bros.

BALTIMORE, Feb. 17.—As a result of the correspondence between President Grant and Scott of the Baltimore & Ohio and Pennsylvania Central, the former has released passenger rates forty per cent. between Philadelphia, Baltimore, Washington and western points. The Baltimore road is now arranging for a steamship line between Baltimore and New York, to give them a freight outlet.

FROM NAPANEE.

GRAND ORANGE LODGE.

STATE OF THE ORDER.

INCORPORATION TO BE AGAIN SOUGHT.

CONDEMNATION OF AMNESTY.

RESOLUTION OF CONDOLENCE.

ELECTION OF OFFICERS.

NAPANEE, Feb. 17.

The Grand Lodge opened this morning at 9 o'clock. The Grand Master in the Chair.

The first order of business was the reception of the reports of the Standing Committee, which reports showed the Order in Ontario East to be in a very flourishing condition.

A resolution was unanimously carried in favor of applying at the next session of the Ontario Legislature for an Act of Incorporation of the Grand Orange Lodge of Ontario East.

The recent action of the Dominion Parliament on granting an amnesty to Riel and the other North-West rebels was severely condemned and censured.

The following resolution was unanimously adopted: "Resolved, that the Grand Secretary be instructed to telegraph, on behalf of the Grand Lodge of Ontario East, to the Grand Lodge of Ontario West, our fraternal condolences on the irreparable loss sustained by the Grand Lodge of Ontario West, in the death of their late Grand Master, who for so long a time adorned the highest and most honored position in our noble institution. That in the opinion of this Grand Lodge the Orange Association has, in the death of Bro. Boulton, lost a fearless and able champion, a wise legislator, and a generous brother."

The election of officers was then proceeded with which resulted as follows: Grand Master—JOHN WHITE, Esq., M. P., Roslin.

Deputy Grand Master—DAVID MARSHALL, Port Hope, G. FLETCHER, Brockville.

Grand Chaplain—REV. JAMES NORMAN, Ormeau.

Grand Treasurer—JOHN G. MOORE, Belleville.

Grand Secretary—A. J. VAN ISSEN, Kewee.

Deputy Grand Secretary—D. ERING, Dartford.

Grand Lecturer—JOHN HOLMES, Kingston.

Grand Director of Ceremonies—Wm. HENDERSON, Port Granby.

The Grand Lodge then adjourned until 2 o'clock p. m.

The next meeting of the Grand Lodge will be held in the City of Kingston in February, 1876.

FROM OTTAWA.

PROPOSED NEW CHURCH.

CURLING MATCH.

FIRES IN OTTAWA AND HULL.

Accident to a Boy.

NEW RAILWAY BRIDGE.

OTTAWA, FEB. 17.

The Germans of the city have purchased a lot on Wilcox Street, where they intend erecting a Lutheran Church.

A team from the Vics Royal Club who went to Renfrew to play a return match with the Club of that place, were defeated.

At a late night in Hull, a house owned by Mr. Donahue was destroyed, and the stock of confectionery, loss \$2,000.

Another fire occurred at noon to-day in the west end of the City destroying a frame building.

Over ten per cent of the children attending the Public Schools have not yet been vaccinated.

A boy named Allan had his hand cut off in Oliver's cabinet factory yesterday.

A new railway bridge over the Rideau River is being erected by the St. Lawrence & Ottawa Company.

The mails are very irregular.

Weather mild.

AFTERNOON DISPATCHES.

EUROPEAN.

Steamships Arrived Out.

MISSING SEAMEN.

JOHN MITCHELL'S POSITION.

Determined Attitude of His Supporters.

WEATHER PROBABILITIES.

The Beecher-Tilton Trial.

SUICIDE OF A FIRE COMMISSIONER.

LONDON, Feb. 17.—Arrival out, the Steamship California and Oder, from New York, and Annapolis from Portland.

The captain and thirteen of the crew of the Steamship Sydney Despatch, which was wrecked for Liverpool, which was abandoned off the Shetland Islands, are missing. The remainder of the ship's company have arrived at Valentia.

It is reported that Mrs. Mitchell will refuse to take the oath of allegiance. It is also said that the other Home Rule members of Parliament will refuse to support Mitchell because the policy he proposes to pursue is

different from theirs. At a meeting of the members of the County of Tipperary, Ireland, resolutions were adopted declaring that in event of Mitchell's election to Parliament being annulled, they would again return him.

WATERBURY, Feb. 17.—Probabilities. For the Middle and Eastern States falling barometer, increasing southerly winds, warmer, cloudy weather, with possibly rain or snow, followed by northerly winds and colder weather in the Middle States on Wednesday night.

NEW YORK, Feb. 17.—Theodore Tilton resumed his place on the witness stand this morning, when the court opened, and his re-direct examination was continued by Mr. Fullerton. The court admonished the audience to preserve perfect order, and express neither approbation or disapproval of the proceedings. All parties to the suit were in court. The witness continued.

NEW YORK, Feb. 17.—John B. Drayton, President of the Jersey City Fire Commissioners, committed suicide this morning by shooting himself.

A fire at Fergus on the night of the 16th inst., destroyed Watson's tavern. Loss from \$10,000 to \$15,000.

Commercial.

LIVERPOOL, Feb. 17, 2 p. m.—Cotton, sales of today 64,000 bales were American. Breakfast, quiet. Bacon 49s 9d per cwt. for short clear.

WILD CHERRY BALM.—The memory of Dr. Wilder is embalmed in the hearts of thousands who have been cured of their sufferings by his Cherry Balm.

THE GREAT SUPERIORITY OF DR. WHEELER'S COMPOUND EXTRACT OF PLACER AND COLLAGEN is due to its being purely physiological in its action in restoring all forms of debility by supplying the waste of tissues resulting from mental and muscular exertion, and thus preventing nervous prostration and general debility. For building up constitutions of low vitality from scrofula, or consumption, disease, or impaired by dissipation and bad habits, it is unequalled, as it immediately imparts energy to the digestive apparatus, and creates healthy blood, thus and vitalizing at once all the organs of the body in the same manner as our daily food. It is the only compound of Phosphorus assimilated by the system, and is not a dangerous agent containing the vital power.

PROF. J. V. EGAN, M. A., The Celebrated English Philologist and Historian, will be at the Haymarket Hotel, from Thursday the 17th inst. until Saturday the 19th inst. The day after tomorrow an examination should call and bring their children.

THE poor and suffering candidates for relief from the Charity of the City of New York, will be at the City Hall, on Wednesday, Feb. 17, 1876.

A., Madoc; Ann Hewitt, Toronto; and John Fletcher, Toronto. At St. James' Cathedral the Rev. A. Benson preached the funeral sermon, and the services at the grave in St. James' Cemetery were conducted by Rev. Dawson. The procession was the most imposing which had been seen in Toronto for many years. Mr. Boulton is succeeded as head of the Royal Black Knights of Mountaineers by T. C. Scott, of Mountaineers, and the Provincial Lodge for Ontario by Jno. C. Moore, of Belleville. The Parkhill, of York, becomes Grand Master, Western Ontario.

And doubtless be appreciated by them.

In the new postal regulations, it is not ordered to compel the pre-payment of all mail carried by mail in the Dominion.

The rule of the present Government is so peculiar in Manitoba that an agitation has been started with a view to secure to the people of that Province, the management of the lands.

Save Your Hair.—If you wish to save your hair and keep it in a strong and healthy condition, use *Dermae*. It will gradually restore the roots of the hair, and remove all natural action upon which its growth depends. Twenty years ago a single bottle of *Dermae* saved a desperate case, in which all other treatment had failed; and since that day, it has cured thousands of cases of baldness, dandruff, Itch of the Hair and Irritation of the Scalp have yielded to the same remedy.

ciation.

HELLEVILLE, Feb. 10th, 1875.

Mrs. W. H. Holtou and W. H. Vantassell,
FLEMEN,—I take great pleasure in in-
g you are due at the last meeting of the
Association the following resolution was
passed by the officers and members man-
y:

Resolved, That the thanks of this Asso-
ciation be and are hereby tendered to
Holtou and W. H. Vantassell for the
number of useful and instructive books
to the Workingman's Temperance
Association; also a gift in money from Anson
Hop. Esq., on behalf of the Library

I remain, gentlemen,
Yours respectfully,
JOSHUA CURNELIUS,
Sec'y W. M. T. A.

ADVICE FREE.

Daily Intelligence.

FRIDAY, FEBRUARY 19, 1876.
Town and Vicinity.

TO CORRESPONDENTS.—Correspondents must bear in mind that communications for the paper, unless accompanied with the name of the writer, are thrown into the waste basket.

HASTINGS MUTUAL.—The annual meeting of this company, for the reception of the annual report and the election of the Company will be held at the office of the Company at 10 o'clock a. m. to-morrow.

CONFIRMATION.—The Lord Bishop of the Diocese will hold a service of confirmation in St. Charles Church this evening at 7:30 o'clock. A collection will be taken up for some special object.

CREATABLE.—It is to be noted to the credit of the authorities that the holes in the ice at the engine stands are now kept open. We offer the further suggestion that the approaches to these sources of supply be put in fairly passable condition.

PERSONAL.—Mr. M. M. Thompson, of the firm of W. H. Carpenter & Co., who last year had the contract for working the traffic on the Dawson Road, left for Fort Garry last night, whether he goes to look after some of the effects of the firm.

WOOD.—Owing to the heavy rains, "wood" is getting to be "wood" once more. Farmers now draw only about three-quarters of a cord, and ask as much as they did two weeks ago for a full cord, and the consumer has to pay it, grumble as he may.

A WARNING.—There is a fair warning given by a decision of the Police Magistrate this morning, to those who love their neighbors' wood-piles not wisely but too well. Let all offenders of this class take note and govern themselves accordingly.

RESOLUTION OF CONSCIENCE.—At a special meeting of St. George's Rectory, 163 R. B. of E. held on Wednesday last, a resolution was passed expressing the sorrow of the Rectory at the death of the late Grand Master of the Order, Dr. Agair Boulton, M. P. P.

CONFIRMATION.—Last night the Bishop of Ontario held a confirmation in St. Thomas Church. There was large attendance, and about forty candidates presented their names for confirmation. This evening at 7:30, Bishop Lewis will hold a confirmation in St. Charles Church.

REMINIS.—Bear in mind that the entertainment given at the Teachers' Library takes place this evening in the Town Hall. Let all who take an interest in so desirable an object give their attendance, and the price of their tickets. A rehearsal took place yesterday afternoon.

DRAIN OF FORT.—The effects of the late winter cold were shown by excavations made by the Gas Company's employees a few days ago, in order to reach frozen pipes, which demonstrated that the frost had penetrated the ground to a depth of nearly four feet or a foot beneath the gas pipes. It is not, therefore, to be wondered at that wells have frozen up and that the water supply has given out.

FAIRER FAIR.—Our advertising columns contain a notice fixing the day for holding the next Easter Fair. Let all who are interested in the success of the fair be present on the 18th March. The superintendent informs us that a large number of cattle have been promised by feeders for that day (18th March), and it is his intention to let the butchers in Montreal, Ottawa and other eastern cities know that there will be a good show of fat cattle on the occasion. Purchasers from the east will find at the Belleville Fair a supply of fat cattle 300 miles nearer home than they have been accustomed to. Our feeders should not miss the opportunity of disposing of the fat cattle. The paying prices may be expected. Let our farmers and feeders bring forward their cattle on the 18th March.

FIAT.—Some one apparently possessed with the idea of affording a supply of wood to the needy poor in this vicinity, or of furnishing a non-paying supply, last night set fire to an old frame building on Church Street, near the gas works. The building was a ruin, and had not been occupied for a length of time, therefore there is no doubt that the fire was incendiary. Taking place at it did about 10 o'clock in the evening, and the night being fine, a large crowd of spectators were attracted. The structure, which was owned by A. H. Wallbridge, Esq., was entirely destroyed, what was not burned being torn down, and this morning residents of the "plains" were helping themselves to the wood which chance had thus thrown in their way. Some effort should be made to discover the incendiary, who, if it may safely be conjectured, was one of a gang of boys who were playing about the place an hour or so before the fire broke out. The burnt building having been isolated from any other dwelling, no damage was done beyond its destruction. Loss probably not over \$100—the value of the timber in the frame.

WEEKLY JOURNAL OF PNEUMONIC AND PNEUMONIC FOR 1876 contains many portraits, Biographies, and Characters of United States; all the Presidents of United States; General Kingsley, James Lick, Peter Henderson, Van Kleeck, John Tynan, John Lard, Characters in Shakespeare; Ourselves—Blue, Black, Grey, Brown, Large, Small, Almond, Round, Oval, Pear-shaped, all about Phosphates; Let us Live, and Living to Eat; Blushing, Cough and Croup; Great Cures; Books; Home Pharmacy; a Cheerful Face; What Am I Good For? and much other matter, all of good quality, sent first post for 25 cents. Address H. R. Wallbridge, Esq., Broadway, New York.

President Adams has issued a proclamation summoning the United States Senate to meet at Washington for an extraordinary session on the 6th prox.

The Belleville Curling Club.

THE ST. CHARLES CHURCH.

Some years ago David Mitchell, Esq., when President of the B. C. C., gave a medal to be competed for annually by the Old Country members of the Club and the Canadian members thereof.

Year after year the Old Country were the victors.

This year, however, to make the contest more equal, the donor changed the terms of the gift so that the contest would be between the Scotch members of the Club and those of all nations. Three Rinks made out to be played, and the side getting the greatest aggregate number of shots will of course claim the medal, and play off amongst themselves as to which of their number shall have the honor of winning it.

Number one Rink played off yesterday afternoon, and after some very close play was won by the Scotchmen. The other two Rinks will be made up next week, and a sharp contest is expected.

We give below the names of the players and the score.

SCOTCHMEN. No. 1 Rink. ALL PATTERNS. J. YOUNG, N. MCARTHUR, ASHES MCFAE, W. K. SWEET, J. ROBERTSON, A. N. ROBERTSON, D. B. ROBERTSON, F. C. RIPLEY, Majority for Scotchmen, 6 to 4.

Intercolonial Railway.

CHARGES AGAINST MR. WALLACE.

INSOLVENCY ACT.

BROWN ON RECIPROCITY.

MILITIA CLOTHING.

OTTAWA, Feb. 19.—The Sub-Committee of the Intercolonial Railway met this morning. After electing Mr. Beaton chairman, the Committee adjourned.

The Sub-Committee on Mr. Wallace, M. P., met, and finding that the evidence given yesterday was incorrectly taken down, ordered to examine the witnesses over again.

Mr. Fournier will introduce the Insolvency Bill to-day.

Mr. Brown will make his reciprocity motion in the Senate on Monday.

Messrs. Edgemon & McLean, of Ottawa, have secured the contract for supplying the Militia with 11,000 spits of cloth.

FIRE IN LOWER TOWN.

PRESBYTERIAN BILLS PASSED.

St. Patrick's Church Bill.

DAMAGING AN ICE BRIDGE.

SNOW SHOE RACES.

THE BEAUFORT FIRE.

Verdict of the Coroner's Jury.

QUEBEC, Feb. 19.

A fire broke out at 11:30 last night at the wholesale grocery store of T. Leblond, in the lower town. The fire was fortunately confined to the building in which it originated. The building and its contents were completely destroyed. Loss supposed to be about \$25,000, covered by insurance in the Quebec and English offices.

Yesterday morning the Private Bills Committee of the Legislative Council recommended the Private Bill Committee of the Legislature Council yesterday. After several sittings the Committee adopted the Bill without amendment, and subsequently the House passed it through Committee of the Whole to a third reading.

The Bill respecting St. Patrick's Church was heard again by Council before the Private Bills Committee of the Legislature Council yesterday. After several sittings the Committee adopted the Bill without amendment, and subsequently the House passed it through Committee of the Whole to a third reading.

The race of the St. Lawrence Snow Shoe Club came off to-morrow.

The Coroner's investigation in connection with the Beaufort Asylum fire terminated yesterday. The inquiry has been most exhaustive one, and a great number of witnesses have been examined. The verdict set forth that the fire broke out in the cell occupied by the woman Mary Breton, but how the fire started is unknown. There were a total of 400 patients in the asylum at the time of the fire, of whom there were 25 missing. There are human reasons to warrant the jury in saying that seven have perished and a great quantity of bones which may or may not account for the remaining 19. The fire appears to have been the most disastrous, as regards the loss of life, that has occurred in Quebec for 30 years.

—Sir Garnet Wolseley is to be sent to Natal to adjust the differences between the Colonial Government and the native tribes.

THE GREAT SUPERIORITY OF DR. WHEATLEY'S Ellixir of Phosphates and Calaisa consists in its being purely physiological in its action in restoring the vitality of the system by supplying the waste of tissue resulting from mental and muscular exertion, and by creating healthy nerves, promoting general debility. For building up constitutions of low vitality, for curing loss of appetite, or impaired by dissipation and local habits, it is unequalled. It is immediately absorbed, and its action is gentle and pleasant, and creates healthy blood, giving and vitalizing at once our daily food. Phosphates are the only compounds of Phosphorus which are by system, and are nature's agents maintaining the vital process.

Shooting Affray in Kentucky.

TWO MEN AND A WOMAN SHOT.

SOUTHERN PREJUDICE.

RAILWAY FREIGHTS IN ITALY.

Pacific Mail Report.

LETTER FROM KING.

New Charter for New York.

SAVINGS BANK LEGISLATION.

UNIONISTS, Feb. 19.—A despatch from Riverport, Kentucky, says that a religious meeting at Willard, Kentucky, last night, a shooting affray occurred between three men, one named Ricketts, Montgomery and Rose. Ricketts was dangerously wounded, Rose slightly hurt, and Miss Matzky, who was talking with Ricketts, was shot between the shoulders. The wound will probably prove fatal. The affray grew out of an old feud.

NEW ORLEANS, Feb. 19.—Today a negro was admitted into the main class of boys at the High School. Twenty out of twenty-two in the class left the school immediately. There was no disturbance.

SALT LAKE, Feb. 19.—Local railroad freight rates by the Union Pacific Railroad are such that parties here have been shipping freight to San Francisco, where, meeting with competitive rates, it is again shipped by rail to New York or Boston.

WASHINGTON, Feb. 19.—The Committee of Ways and Means are now engaged upon their report of the Pacific Mail Investigation. It is pretty generally conceded that the report may be summarized as follows: The benefit of the blame to fall on Schumaker and King, the former to be recommended for expulsion, the latter for prosecution for perjury. All present Congressmen to be examined.

St. Paul, Feb. 19.—A long letter has been received from Wm. S. King, addressed to the Legislature, in response to a resolution requesting him to explain his connection with the Pacific mail business of his father-in-law, the late Senator King.

before purchasing elsewhere. Deliv
any part of the Town free of charge.

DEWEY'S MEDICINE GREAT VICTORY

DR. DEWEY, OF PARIS, FRANCE, an
 eminent physician of foreign descent, has discovered
 Great Blood-Remedy—a Purifying Vegetable Compound
 of natural origin, which cures all the diseases of the skin
 that are every variety of humors, blood-poison, and
 disease that depend on impurity of the blood, whether
 the skin be covered with eruptions, or the blood be
 impure, or the system be otherwise diseased. These
 diseases, are not treated upon the hope of repair,
 but upon the basis of permanent cure.

For the cure of Eczema, Erysipelas, Scabi-
 es, Itch, Alopecia, Ringworm, Eruptions of the
 Skin, Ulcers, and Every Purse of all kinds, A
 Cure in the Most Perfect Manner. It cures
 Ears, Eruptions on the head, and Pimples on the
 face, it stands far eminently as the best
 and the only medicine. The fact is, Humors
 and Diseases of the Skin, of whatever name or nature
 are literally dead upon and carried out of the system
 in a short time, by the use of this medicine. One
 bottle, in such cases, will cleanse the blood
 and rid the system of its impurities.

Obtain it of the
 Dispensary, 100, Broadway, New York.

BELLEVILLE, ONTARIO, TUESDAY, FEBRUARY 23, 1875.

Unaired Rooms.

A visitor in the *Comet* has this to say:—
"I pass some houses in every town who, whether night or well be soiled in with the soil for any purpose they have but a life in life. They are never opened, except for winter. In the winter it is so, that in summer the flies stray in, or, if they are not, the flies fly in through the nets. Now I can tell you who inhabits such chambers when I am in the street, there stands a smell of his clothing that I always wish for a sniff of cologne or hart-horn, or burnt feather or something of that sort, to take the taste out of a house that has never aired every week and corner, all the year."

especially cabbage and onions, which the wicks go by, literally rook in their hiding places. The very garments of the children tell the same story of uncleanness. It is hard to have unwashed clothes, by this may be an excuse for it. But who excuses, can there be for unclean ones, who are in, as you and I are! There is death in such unclean chambers. Better a wick

of men or a cloud of dust: better frost as snow in a room than those intolerable smells. The first thing in the morning when you are ready to go down stairs throw open the window, take apart the clothing of your beds and let the air blow through it as hard as it will. There is health in such a policy."

White deer are common in Oregon.
Utah gained nearly 82,600,000 in weight during 1874.
There are 1,409,448 slaves in the Brazilian Empire by the last census.
A military academy, similar to West Point, has been established in Japan.

The Parliament of Victoria, Australia, has granted a sum of \$50,000 to be expended in "prospecting" for gold, coal and other minerals.

An Omaha woman made a wager she would kiss King Kalakaua, and she did it at one of the public receptions that were given him.

Six cargoes of coffee, aggregating 26

Wyoming rejoices in an extensive oil field where the black diamonds can be gathered to an unlimited extent on the surface without going to the trouble of mining operations.

There are in Georgia 27,385,623 acres of improved land, valued at \$96,511,935. This is an average valuation of \$3.50 per acre. The wild land of the State is returned as 7,000,000 acres, valued at \$2,191,854.

shows a productive industry of seven millions dollars in a year of the general financial depression the country has known; what may not be expected when the depression is removed?

The Messrs. Hor., of New York, books, fitted up a recitation room in the factory, employed a capable person to recitations, and then compelled the

The gold coinage of the United States, during the month of January, amounted to \$1,782,660; subsidiary coinage \$416,225; trade dollar coin \$926,300; of which \$926,000 were coined at the new mint in San Francisco. The export of trade dollars to China during the month was \$1,000,000.

A poor farmer in Scotland in 1750. b. it almost impossible to submit, great care to have his children drive cow where she could eat the richest thickest grass, to house her in the winter and feed her with carefully-stored hay fine, took unheard-of care of his cow. grateful animal rewarded her owner

Dr. Lindeffman, in his report as Director of the Mint, says the amount of silver in the States on June 30th last was \$1,000,000. The estimate shows a gain of \$100,000,000 in the last two fiscal years.

of \$38,500,000. The amount of silver and silver coin and bullion in the world is estimated at from \$10,000,000,000, to \$20,000,000,000. The present rate of production is: Silver, \$80,000,000, and gold, \$100,000,000, the two together being at one-and-a-half per cent of the existing stock of specie.

commencing with Dec. 1st, give New York a total of 11,320,031 pieces; Philadelphia, 4,476,280; Boston, 3,465,443; Chicago, 2,828,270; St. Louis, 1,282,771; Cincinnati, 1,634,428; Baltimore, 1,247,541; Washington, 1,139,790; New Orleans, 141,635; Pittsburgh, 1,016,908. In number of pieces Philadelphia ranks ahead of all other cities than New York.

matter of the first and third class, and only equalled by Chicago in the second class of mail matter, which includes "dollar" packages.

—One of Boston's sources of revenue is its rum trade with the gold coast of Africa. At the time the British authorities laid the duty on rum, last year, to 60 cents a gallon, there were seven American vessels engaged in the trade, and they carried 387,000 gallons.

another vessel, the "Star King," was getting ready to start with a matter of 75,000 more. The Springfield Republican took it to the public whether this isn't rather dubious business for Massachusetts merchants to be engaged in.

of Maine for the past year will exceed 1,300,000. A Camden concern has two several anchors weighing from 4,000 to 50,000 pounds. A large forging establishment has been built at Calais. The only ship factory in Maine is located at Camden, and manufactures daily over 2,500 spools. The Poubroke Iron Works have only about half time, manufacturing some 3,

the total value of which is \$300,000. The Katululu Iron Works have been only and improved. Ten tons daily have been manufactured, for which there is a great demand.

Daily Intelligence.

THURSDAY, FEBRUARY 25, 1875.

Town and Vicinity.

POWERS.—There were no prisoners in the cells this morning. Four men had been taken in the station house last night.

POLICE COURT.—No business to report this morning. To-morrow there will be a change in this respect.

A STRANGER.—A small specimen of the "megal fish" was offered for sale on the market this morning. It was caught in a seine by some fishermen on the bay.

TOWN COUNCIL.—A special meeting of the Council, for the transaction of general business, will be held to-morrow evening. It is quite likely that the session will be an important and interesting one.

OVERLOOKING.—The drains in some of the lower parts of the town are choked, and per consequence the sidewalks are overflowed with snow and mud, and the streets are in places, which of course is rather disagreeing to pedestrians.

LARD YIELD.—Mr. Paul Huxley, who lives near Napanee, has three cows, which yielded 815 pounds of butter last year, as against 815 pounds in the previous year. This is a very large yield, and can be beaten by but few, we imagine.

SNOW SLIDES.—There were today numerous snow slides from the tin roofs of buildings on Front Street. Several persons were almost buried beneath the miniature avalanches, but no one was hurt, nor did any runaways result, as frequently happens in such cases.

ORANGE SORRES.—The members of O. L. N. No. 145, intend holding a Soiree in the Hall, Canfield, on Tuesday evening, March 25. Messrs. John White, M. P., Wm. Johnson, Geo. D. Dickson, J. P. Moore and several Rev. gentlemen, are invited to address. Music, both vocal and instrumental.

ENTERTAINMENT.—Shanawville has a brass band which, under the leadership of Mr. Jacobs, has attained to considerable proficiency. The band proposes to give an entertainment, consisting of readings, music, recitations and addresses, at the residence in the Massac Hall, Shanawville, on Thursday evening, March 4th, when it is to be hoped that their friends will patronize them liberally.

DEPORTATION OF PORK.—We learn that some dealers, unable to supply themselves with a sufficient quantity of pork, have commenced the importation of dressed hogs from Guelph. Several very fine carcasses have been received, which is stated cost about \$9.25 delivered here. This is a decidedly new enterprise.

SECURITY PRISONERS.—Several of these chaps, whose mode of operation is too well known to require description, other than to say that they sell rubbishy cloth for low prices, are operating in the west, and will probably visit this locality before long. Our readers are warned against trading with them at any price, as the goods which they offer for sale are utterly worthless.

THE SHEPHERD.—Advantage has generally been taken of the thaw by parties whose sidewalks were obstructed with snow or ice. There are still some places, however, where shovelling is needed, and it looks bad, to say the least, to see one or two persons in a neighborhood so neglectful as to leave little heaps of snow, which their neighbors' sidewalks are clean. "A word to the wise," is said.

SETTING IN WINTER.—It seems rather a doubtful statement to make, that fishing with minnows is being prosecuted on our bay at the present time, and that the fish are not coming in as well as they did last year. The fact, the fishermen overcome the difficulty by cutting a series of holes in the ice, and by passing the stakes from one hole to another, manage to draw their nets. The "catch" is very large, and many of the boys engaged in the business for their hard labor.

PERFECT BORN.—At the annual meeting of the Maiden City Lodge No. 13 "Perfect Borne" held last night, the following officers were elected for the ensuing year: James Byrne, W. M.; James Moon, D. W. M.; Richard McEwen, R. S. R. Jones, Assistant R. S.; George F. Pretty, T.; Arthur Pitts, O.; Philip Wright, L. T.; Frederick D. Ford, O. T.; John Treguhart, F. O. M.; John Bryant, 2nd M. M.; Robert Rutledge, 3rd C. M.; Robert Boyle, 4th C. M.; John Ennes, 5th C. M.

ARRIVAL.—Among the arrivals at the Deane House are Mr. Togo, of Quebec, and Mr. O'Brien, of Toronto, representing the Stadacona Lumber Company, who propose forming a local Board of Directors, with an Agency for Belleville and neighboring districts. This Company was organized last year and is composed of the wealthiest and most influential men throughout the Dominion. They are registered by their stock list of over two thousand shareholders, representing several millions and a quarter of subscribed stock. The Company require a certain amount of stock to be subscribed by each locality, when a local Board is established, and we anticipate that a large amount will be taken up by our citizens.

THE MEETING.—The tea-meeting in connection with the John Street Church, which was given in the Metropolitan Hall last night, was highly successful. The audience, which numbered about 600, after doing ample justice to the good things which were so beautifully provided, were entertained to a literary treat, which was of the most pleasing character. The chair was occupied by Mr. E. S. Chase, who, after an instrumental overture by Prof. Deane, delivered a short address. Messrs. Dwyer, the Clerk and the Assistant Secretary, were followed at intervals, interspersed with readings by Messrs. Thos. Ritchie, R. O. Clute and P. L. Palmer, and addresses by

the Revs. Dr. Burns and Mr. Burton. Rev. W. McKen, of Danbury, who had been expected to deliver an address, was unable to attend. The whole entertainment passed off in the most successful manner, leaving nothing to be desired on the part of the audience, as testified by their frequent applause.

LICENSING.—The new License By-law, which has had its first reading in Council, and which will probably be passed at the meeting of that body to-morrow night, fixes the sum payable to the municipality at the same rates as previously, and provides that applicants for tavern licenses, and for licenses to sell wine and beer, be required to furnish a bond, in the sum of \$100, which is divided as follows: For tavern licenses \$4; shop, 10; saloon, 4; and wholesale dealers, 2. This is about the same amount as last year, but it is possible that additional applications may be put in before to-morrow night.

THE DOG QUESTION.—Under the By-law passed last year, the assessor is relieved from the duty of assessing property for a tax upon dogs, the owner being thrown upon the owner or his agent, and the assessor, of registering their canine property with the Clerk, under pain of its destruction by the police. Like many another good measure on our By-law book, this has been practically a dead letter, but a small proportion of the owners registering their dogs; and none of the unregistered were destroyed. The consequence has been that dogs have become far more numerous than under the old law—so much so that they are nothing short of a public nuisance. The carrying out of this By-law would be of benefit to the public, and of consequence to the finances of the town, and we commend the matter to the consideration of the Finance Committee.

MORNING DESPATCHES.

AMERICAN.

STATE PRISON FOR LIFE.

Mountain Meadow Massacre.

TO BE HANGED.

PROMISCUOUS SHOOTING.

Dense Fog in New York.

ANTICIPATED TROUBLE IN CHICAGO.

A FEARFUL CATASTROPHE PROBABLY AVERTED.

THE LOUISIANA EMBROIDER.

Boston, Feb. 25.—Daniel Friel has been convicted and sentenced to state prison, for the murder of Peter Smith, colored.

SALT LAKE CITY, Feb. 24.—Geo. C. Bates, a lawyer, of the firm of Sutherland & Bates, practicing a card game, has been sentenced with an order from the second district court of Utah, to appear in the court of police, where they should not be punished for contempt and disobedience of the court; being that eight persons indicted for murder at Mountain Meadow Massacre, had employed the firm which had endeavored to procure an order from the Judge, respecting bail in \$10,000 each, the parties having fled beyond jurisdiction of the Court and offering to appear for trial if no arrests be made.

HARRISBURG, Pa., Feb. 25.—Joseph Brown, murderer of Daniel M. Kramer, will be hanged on the 24th March.

SPRINGFIELD, Mass., Feb. 25.—Three drunken men having shot guns got into a room in Monson's Saloon last evening, and coming out shot three or four men workingmen passing by. Michael Henry was hit right.

MAINE, Feb. 25.—A dense fog laid over the State, and a heavy fall during the night.

A Chicago fall was very considerable yesterday, but nothing was done by the Committee except to hold these "three men" right, and they did not speak at the Ball Society. Resolutions were adopted demanding the disbanding of relief to be made more in connection with Committee times, and they will be presented to the Relief Society tomorrow to-day now. There is to be a mass meeting to-day to bear the result of the demand. As all the militia in the city will be in readiness for service, there will not probably be any serious trouble.

The committee appointed by the Produce Exchange on Saturday evening, went to Albany yesterday. It consisted of five members, who, it is understood, will urge the sale of the lateral canal; the making the depth of the canal fully seven feet throughout, and a reform in the management of canals by the adoption of a more economical system. Delegations from Chicago and Buffalo will, it is expected, act with the committee.

A report was current here last night that several lives were lost at Fulton Ferry, but for its foundation the fact that the bridge chain as one end of Fulton Ferry bridge broke, and a boat containing several persons fell upon the deck underneath. This prevented what might otherwise have proved a fearful accident, as the bridge was crumpled with the overthrow of the boat. The arrival of the bridge was reported.

H. Higgins, a small cotton ball, suspended yesterday.

A Chester, Conn., despatch states that Rugg Company's tool factory burned. Loss, \$60,000. A large number of people are thrown out of employment.

A New York special to the Herald says that McCreary stated last night that the Conservatives repudiated the action of the caucus in accepting compromise on the ground that it violates the very principle for which they have been struggling. Preparations were making for a mass meeting of Conservatives on Friday night, although there were rumors of compromise. Gov. Cleveland says he cannot wait the Legislature does, as they are now bound to act as ordered from Washington. It is stated a caucus adopted the Wheeler proposition, which was approved by a whole Congressional Committee should assume the arbitration.

AFTERNOON DISPATCHES.

WARMER WEATHER.

MURDERERS REPRISSED.

The Beecher Case.

Speech of the Counsel for the Defense.

WASHINGTON, Feb. 25.—Probabilities for the day are fair, however, and somewhat warmer, cloudy weather, preceded in the lower lake region, New York, and Pennsylvania, temporarily by northeast wind and rain.

LONDON, Feb. 25, 3.30 p.m.—Bullion in the Bank of England increased £305,000 during the week. The proportion of bank reserves to liability, which last week was 41% per cent, is now 43% per cent.

PITTSBURGH, Pa., Feb. 25.—Hart, Coughley & Co., brokers, who were suspended yesterday, have made no statement as to their assets and liabilities, but it is claimed that the former will almost, if not entirely, cover liabilities.

KEOSAUQUO, Feb. 25.—The S. & Q. Queen is ashore at Squaw Island. She is from Liverpool.

AUGUSTA, Me., Feb. 25.—Judge Dafoeur having granted a hearing of information restraining the execution of Gordon and Wagner, on the ground of unconstitutionality of the law, requiring the Governor to fix the date for their execution, the Governor has relieved both men for four weeks.

WASHINGTON, Feb. 25, (noon).—The House is still in session.

NEW YORK, Feb. 25.—The Tribune-Bath suit was continued this morning in the Brooklyn Court Room, which was an untypical day, packed with spectators. The parties to the suit were all present. Mr. Tracy continued his address. He said that the charge in this case was adultery, and the burden of giving the proof of it lay with the prosecution. It was not for the defendant to prove his innocence, but for the other side to prove his guilt. They knew how difficult it was for any person, charged with the commission of this offense, to prove his innocence. Denying it on the witness stand, when he is accused of this offense, all he can do is to give a denial of it, and bring his previous good character to bear upon it. The parties had been acquainted for twenty years, and during that time this lady was the wife of Theodore Tilton; and she was a member of the church, and her husband and pastor face each other. He visited their house at Mr. Tilton's request during that time, and there was not the slightest evidence to show that the defendant was guilty of the offense imputed to him. There was not the slightest evidence either to suggest the offense with this "white-washed woman" of having criminal intercourse with her pastor. You will remember, gentlemen, the story told by the police, coming from the desk of the police, that Kate Cagney, or Kate Smith, as she called herself, who swore that she saw the plaintiff's wife sitting in the lap of her pastor and holding him by the neck, "Blasphemy, heresy, and heresy," and her reply of "Dear father, I feel so, so!"

News Condensed.

—There were twenty-four deaths from small-pox in Montreal last week.

—P. Tasse, a French Canadian aged 107, died in Kingston on the 22nd.

—The Ohio Legislature yesterday passed a bill providing for compulsory education.

—A fire in College Street, Montreal, destroyed \$55,000 worth of property on the 23rd.

—The Montreal Curling Club beat Hamilton and Kingston, three rinks by thirteen shots on the 24th last.

—A man named John Murray, committed suicide by shooting himself with a revolver at the City Hotel, Toronto, on the 23rd.

—Mr. John Morgan has been elected President of the Bank of Montreal, in place of Wm. Molson, deceased.

—James Laughlin, of St. Catharines, was killed on the 24th inst., by the accidental discharge of a gun.

—John Murray, formerly in the lumber business, New Brunswick, committed suicide in Toronto on the 24th, an account of business losses.

—Admiral Ross, Chairman of the Finance Committee in the Toronto City Council, proposes to tax church property in that city.

—Mrs. Jane Matimores, of Howard, drank a pint of whiskey on the 23rd inst., laid down in the yard, and was found frozen to death on the 24th.

—At the close of a lecture by Father Chiquet at St. Charles Church, Montreal, on Tuesday night, there was a row of a rather alarming character. Sticks and firearms were freely used, but no serious damage seems to have been done.

Isaac Blais.

STOCK BROKER and Real Estate Agent.—Household and Real Estate Agent, and Insurance Broker. Mortgages negotiated and Real Estate sold. Also, Wood and Coal delivered in any part of the City. All orders promptly attended to. Office at the end of W. R. Wallbridge's Foundry, on Front Street.

Commercial.

BELLEVILLE MARKETS.

INTELLIGENCER OFFICE.

Belleville, Feb. 25, 1875.

Business is again to be reported as light, owing to the bad roads, though prices from various causes, have undergone several changes.

PROVISIONS.—Bread and mutton remain unchanged; pork—owing to the near approach of the end of the season, dressed hogs have declined to \$8 to \$8.50 per bushel, the latter rate being exceptional. Butter is unchanged, though prices seem bound to fall, owing to a heavy decline in the chief producing districts.

GRAIN.—Receipts generally light. Wheat sales on Feb. 25, 3.30 p.m. per bushel—small advance on last week's quotations. Barley is offered in small quantities, as to be scarcely quotable; the market price is from 90c to 95c, but a few choice loads have been sold to buyers for making purposes, at \$1.10. Rye may be quoted 62c to 65c, which are extreme rates, the average being 63c to 64c. Oats have fallen to 40c to 42c, the former being the ruling price for such samples as are generally offered.

Hens, such as a decline of 10c, per 100 lbs. a few dealers are now offered, the price for which is at present 25c to 30c each. Hens are mostly, though in moderately good supply at from \$10 to \$12 per ton.

RAISINS.—Which are now being received by the dealers, will be found quoted below.

POTASH.—Receipts are almost nil, and no change is to be noted.

Other articles are as quoted:

WHEAT—85c to 95c.
BARLEY—50c to 55c.
RICE—75c to 80c.
STARCH—60c to 65c.
OATS—40c to 42c.
BEAN—45c to 50c per 100 lbs.
MUTTON—75c to 80c per pound.
BUTTER—80c to 85c per 100 lbs.
LARD—10c to 12c per lb.
SUGAR—10c to 12c per lb.
COFFEE—25c to 30c.
TEA—10c to 12c per lb.
TALLOW—10c to 12c per lb.
HONEY—10c to 12c per lb.
WINE—10c to 12c per lb.
SPIRITS—10c to 12c per lb.
CLOVER SEED—25c to 30c per bushel.

THE INTELLIGENCER.

We have secured the services of Mr. JOHN T. LATTIMER, of Belleville, for the purpose of procuring Subscribers to the DAILY and WEEKLY INTELLIGENCER, and to act as general Agent for the establishment.

He is already starting out at once to make a thorough canvass of the County of Hastings, and thereafter will extend his business into adjoining Counties.

Mr. LATTIMER is an energetic business man, and we commend him to the good will of our friends throughout the County, who, we trust, will render him every assistance in their power to promote and extend the business of the office.

Business men in the Village can contact him with orders for any kind of work, which we will be pleased to execute, and the certainty that it will be promptly and satisfactorily executed.

It is expected that the enlarged WEEKLY INTELLIGENCER will be found an addition to the people of Central Canada, a paper unsurpassed outside of the "large cities."

The office is being replenished with the newest styles of fancy and plain type, and for the execution of all kinds of printing, the facilities of the INTELLIGENCER establishment are fully up to the times.

Belleville, Feb. 17, 1875.

SPECIAL NOTICE.

PERSONS having accounts with the INTELLIGENCER Office, previous to the 1st of January, 1875, will oblige the Office by settling the same at an early date as possible, as accounts are closed to the 1st of January.

FRIDAY, FEBRUARY 26, 1875.

NEWSPAPER POSTAGE.

We are glad to notice that the newspaper press, irrespective of party politics, is opposed to the feature in the Dominion regulations, which makes the payment of newspaper postage compulsory. As we have before pointed out, it will prove a hardship to the publishers of country newspapers, and, whether intended or not, calculated to serve the large metropolitan papers. It would, besides, cause a very great annoyance to publishers in making up their accounts with each subscriber. The publisher who charges, say, one dollar and a half for his paper in advance, has put the price down to the lowest possible figure, and if he is compelled to pay, say, 10 or 15 cents on each subscriber a year in postage, this will be but a total loss, unless indeed, he charges less than he should be with it. But this will be regarded to be exceedingly inconvenient, if, indeed, it be not altogether impracticable. The postage, which according to our calculation, amounts to about ten cents a year would have to be added to the subscription price, and if this were charged, in the majority of cases it would not be paid, on account of the inconvenience of sending to the publisher fractional currency of that denomination, as well as the difficulty of paying what would appear to be an unnecessary addition to the subscription price. So the publisher would have to submit to the loss. We will not take into consideration the loss the publisher would sustain in preparing the postage on the hundreds of newspapers for which he never gets his pay; though in this country, from the manner in which all kinds of business is transacted, it is impossible to carry off the advance pay system, still it would be a fair argument against the compulsory pre-payment of postage.

It would be a great boon to the country if the postage on newspapers were abolished altogether, and we hope the Postmaster-General will see his way clear to do so, and tell in this particular at all events, by recommending the abolition of newspaper postage.

DOMINION RIFLE ASSOCIATION.

The annual meeting of the Dominion Rifle Association commenced at Ottawa, on the 24th. Lieut.-Col. Gzowski, President, presided. The different Provinces were well represented. The affiliated Association numbered 25. The Balance Sheet exhibits the total income from the Dominion Rifle Association for the year 1874, which period had been \$11,751.07, while the expenditure amounted to \$10,773.63, showing a balance of \$1,977.44 carried over from last year's Financial Statement, leaving a total balance of \$13,948.85 in favor of the Association. The Government grant during the year was as follows:

The Dominion of Canada Rifle Ass'n. \$9,000
Ontario Provincial Rifle Ass'n. 1,200
Quebec Prov. Rifle Ass'n. 1,200
Nova Scotia Prov. Rifle Ass'n. 1,000
New Brunswick Prov. Rifle Ass'n. 1,000
Manitoba Prov. Rifle Ass'n. 400
British Columbia Prov. Rifle Ass'n. 400
Prince Edward Island Prov. Rifle Ass'n. 400

The general postmaster would afford the mode of selecting the Wimbledon team was carried. Moved by Col. Barr, that the Council be recommended to arrange matches for 1875 with a view to the selection of the Wimbledon Team for 1876, and that a series of matches be not set up with suitable prizes to induce the best shots of the Dominion to attend, and that the Provincial Rifle Ass'n. be requested to compete.

THE DOMINION RIFLE ASSOCIATION.

It was also agreed to allow the use of any rifle of bona fide Imperial Government pattern, provided that such rifle was stamped with the Government Receiver's mark, and was used in accordance with the regulations of the Association.

After the passage of some of votes of thanks, the Association adjourned.

THE RAILWAY AND SMOELT-FURNACES.

It would seem almost superfluous to refer to the matter again, but it is a question of the 1000 questions, and with the present and such "factories" in the Town and County, that we feel justified in bringing the subject again before the people. It is a question of the 1000 questions, and with the present and such "factories" in the Town and County, that we feel justified in bringing the subject again before the people. It is a question of the 1000 questions, and with the present and such "factories" in the Town and County, that we feel justified in bringing the subject again before the people.

With reference to the 1000 questions, and with the present and such "factories" in the Town and County, that we feel justified in bringing the subject again before the people. It is a question of the 1000 questions, and with the present and such "factories" in the Town and County, that we feel justified in bringing the subject again before the people.

With a strong feeling in favor of the enterprise by which the railway is to be constructed, we have no doubt that we will be able to secure the necessary capital for the enterprise. It is a question of the 1000 questions, and with the present and such "factories" in the Town and County, that we feel justified in bringing the subject again before the people.

THE NORTH-WEST PASSAGE.

Another and determined effort to carry out the dream of explorers—to reach the North Pole—is about to be made. England is busy fitting out an expedition, which it is proposed to equip in the most complete manner. It is a question of the 1000 questions, and with the present and such "factories" in the Town and County, that we feel justified in bringing the subject again before the people.

A similar feeling seems to exist in Germany, where an expedition of the same character is being fitted out with the view of effecting a like object. In consequence of this, it has been proposed that the British expedition, which had been intended to depart this season, should be delayed for a year, as the Germans cannot be ready, this season. Then, it is proposed that the expedition, start together and divide the world, the British proceeding by Smith Sound and the German by the North-west.

The hope is that if Greenland territory, as is believed, near the Pole, the English from the west may meet them, or that it will be the last of the north part of the Continent of Europe.

It does not seem unlikely that this people's delay should take place, as there is no doubt that the matter of the kind, and the interest of the British and German would be likely to achieve a result, but other expeditions could perform singly. The story of the Northwest Passage is one which will keep for a year or two longer, and discovery is bent with such dangers and difficulties as can only be overcome by the most resolute courage on the part of its would-be passengers, aided by the best means which science can bring to bear, and it is desirable that the matter should be conducted in a manner as possible for the purpose of affording a mutual interest to daring, and assistance in case of disaster.

DOMINION PARLIAMENT.

SECOND SESSION—THIRD PARLIAMENT.

Session—Feb. 25.

In the Senate, the motion of Mr. Vail, a Committee was appointed to investigate the conduct of the Government in relation to the Dominion of Canada. The motion was carried by a majority of 14 votes.

The House of Commons, on the 25th inst., passed a resolution to the effect that the Government should be held responsible for the conduct of the Dominion of Canada.

The House of Commons, on the 25th inst., passed a resolution to the effect that the Government should be held responsible for the conduct of the Dominion of Canada.

The House of Commons, on the 25th inst., passed a resolution to the effect that the Government should be held responsible for the conduct of the Dominion of Canada.

A Charming Woman.

(From Harper's Magazine for March.)
A charming woman, I've heard it said
By other women as light as air,
But I don't think the claim may be
Her face, indeed, is not so bright as
And her form is quite as good as the best,
Where nature has done a happy thing,
And a clever milliner all the rest.

"Intelligent? Yes—in a certain way!"
With the finishing gift of ready speech,
And knows every word and what to say,
Whenever the topic transpires to reach.
But from the topic on which she is
From an open book to a red rose,
Hate, sorrow, or beauty, she'll find a way
To have them all in her grasp.

Her laugh is hardly a thing to please
For an honest laugh is a noble virtue,
And her words are full of sense and grace,
And her mind is full of knowledge and truth.
A woman's mind is not to be
What nature has done for her,
The four words, I just what she should,
If that is indeed to be the test!

To her seat in church—a good half mile—
When the day is fine and the sun is out,
Arrived, of course, in the latest style,
And she has a good deal to show,
And she has a good deal to show,
And she has a good deal to show,
And she has a good deal to show.

Davis' Chop House!

THE Subscriber has opened in McLaughlin's
a new Chop House, at the corner of
three doors north of the Deloit House.
A FIRST-CLASS RESTAURANT,
Where gentlemen can be supplied with all the
delicacies of the season, at moderate prices,
and at moderate prices.

Mr. J. A. Davis has a BILKARD
ROOM attached, containing five first-class
standard billiard tables.
J. A. DAVIS.
Belleville, Feb. 9, 1875. 228-4

A SOLEMN KETCH.

THE DIFFICULTIES OF PUFFING
AN UNDERKID.

From the Detroit Free Press.

"I've taken your puff for twenty-six
years, the coachman, as he reached the
head of the stairs, and I want a puff."
He was a very tall, slender man, with a
face which had a smile about 1842, and
his neck was encased in a white cravat
and his hands were thrust into black gloves.
"I've got a new horse, a new stock
of coffee, and I want a local notice," he continued,
as he sat down and sighed, as if
ready to serve a coffee and a puff.

"My dear sir," replied the man in the
corner. "I've just got a great many
humans, and your general bearing has
created a favorable impression. You sigh
with the sighs, give with the groans,
and on extra occasions you show a
sorrow, even though you know that you
can't get ten per cent. of your bill under six
pence."

"Yes," sighed the undertaker, instinctively
measuring the length of the table
with his eye, and wondering to himself why
others' labors were covered with groans,
with rows of coffin-lids around the edges.

"Death is a very solemn thing," continued
the man in the corner. "I've just got a
great many humans, and your general bearing
has created a favorable impression. You sigh
with the sighs, give with the groans,
and on extra occasions you show a
sorrow, even though you know that you
can't get ten per cent. of your bill under six
pence."

"Yes," sighed the undertaker, instinctively
measuring the length of the table
with his eye, and wondering to himself why
others' labors were covered with groans,
with rows of coffin-lids around the edges.

"Death is a very solemn thing," continued
the man in the corner. "I've just got a
great many humans, and your general bearing
has created a favorable impression. You sigh
with the sighs, give with the groans,
and on extra occasions you show a
sorrow, even though you know that you
can't get ten per cent. of your bill under six
pence."

"Yes," sighed the undertaker, instinctively
measuring the length of the table
with his eye, and wondering to himself why
others' labors were covered with groans,
with rows of coffin-lids around the edges.

"Death is a very solemn thing," continued
the man in the corner. "I've just got a
